TIME YOU UPGRADED TO LITHIUM POWER FOR YOUR 'OFF-GRID' ADVENTURES

12V LITHIUM BATTERY RANGE

100AH ENTRY LEVEL
SUPPORTS 1280W INVERTER
ONLY 9KGS

105AH GRADE-A EVE CELLS
SUPPORTS 2000W INVERTER
ONLY 10KGS

150AH GRADE-A CELLS
SUPPORTS 2500W INVERTER
HEATING TECHNOLOGY FOR ARCTIC USE

5 YEAR WARRANTY • 50% MORE POWER • 50% LIGHTER • FULLY CERTIFIED • ZERO MAINTENANCE •
EASY INSTALL • FITS UNDER SEAT OF FIAT DUCATO • 10 YEAR LIFESPAN • NO TOXIC GASES • 100% RECYCLABLE

SMARTIQ APP

No more expensive Battery Monitors or complex wiring of old fashioned Shunts. By integrating industry-leading Bluetooth Low Energy 5.0 technology into our SMARTIQ SERIES batteries, users can effortlessly connect their battery to a smartphone or tablet. Once connected, real-time data monitoring becomes possible. Gain valuable insights into your battery performance and the ability to optimise your usage and the batteries long-term health.

Download the free SMARTIQ App, available for both IOS and Android platforms, and unlock a world of live data monitoring. Keep track of vital parameters such as voltage, wattage, temperature, amps, State of Charge (SOC), estimated time till empty, estimated time till full, and an array of other features.

Whether you operate a 12v system or a 48V off grid system, in Parallel or in Series the SMARTIQ APP now makes it possible for you to monitor and track all of your batteries together on a single screen. This advanced 'Multi-Connection' feature is exclusive to SMARTIQ Batteries.

SEATBASE DIMENSIONS
